

Presidio Meetings and Utility Work Advisory

November 2009

DOYLE DRIVE REPLACEMENT PROJECT OVERVIEW

Construction of the Doyle Drive replacement, the Presidio Parkway, will begin in late November, more than a year ahead of schedule, due to \$50 million from the American Recovery and Reinvestment Act of 2009.

The Presidio Parkway will provide a spectacular regional gateway between the Golden Gate Bridge and the city of San Francisco. It also will increase bike and trail networks, and improve seismic and traffic safety.

The construction effort will take approximately four years to complete. This ongoing series of advisories will update Presidio residents and employees about what to expect as work progresses at the park.

Example of a utility trench.

UTILITY RELOCATION OVERVIEW

In order to construct the Presidio Parkway, certain existing utilities in the project corridor including potable water, sanitary sewer, telecommunications and electrical, must be relocated.

Utility relocation work will include saw-cutting, trenching, grading and the use of heavy equipment.

Utility relocation activity in the vicinity of McDowell Avenue and Lincoln Boulevard is underway and will be complete in late November 2009.

Utility relocation along Mason Street and adjacent to Lincoln Boulevard (near the San Francisco National Cemetery) will begin the week of November 2, 2009 and continue through February 2010. Work will progress west to east.

PRIMARY UTILITY RELOCATION ACTIVITY

- November 2009 – February 2010
- Underway – ending late November 2009

Vehicle and pedestrian access will be maintained throughout these activities.

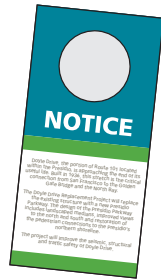

TRAFFIC AND ACCESS INFORMATION

Access through the Presidio and to homes and businesses will be maintained during this activity. Intermittent one-lane traffic control will be required; traffic flaggers will direct vehicles, as needed, to minimize delays.

TEMPORARY SERVICE INTERRUPTIONS

In order to relocate utilities within the Presidio, temporary service interruptions will be required for some homes and work places.

- Temporary service interruptions are anticipated to occur overnight to reduce impacts to residents and tenants.
- Impacted residents and tenants will be notified approximately 1 week prior to the service interruption.
- Visit the Project Neighbors section of our Web site at www.PresidioParkway.org.
